@DALupton
You planned to conduct fieldwork using traditional face-to-face methods. Then COVID-19 erupted.

Now what?
Traditionally face-to-face - transforming into ‘distance’ methods

‘Born digital’ content - already ‘distance’ methods
It’s not all about the digital ...

Paper diaries
Drawings
Handwritten creative responses
Mapping exercises
Collages
Letters
Cultural probes

Send and return by snail mail or use email to send photos of the artefacts. Can be followed up with a phone or online discussion
Don't forget the ethical implications when conducting fieldwork in shared household spaces.

Digital data privacy issues - GDPR and more.

Revised ethics applications may need to be approved for modifications to your protocol.
